Certified Scrum@Scale® Practitioner

In our two-day Certified Scrum@Scale® Practitioner course, you will gain the knowledge and skills necessary to transform your organisation into an agile enterprise. Learn how to apply fundamental Scrum and Lean product development skills to scale Scrum across multiple teams.

The Scrum@Scale framework was developed by Dr. Jeff Sutherland, the co-creator of Scrum and the founder of the certifying body Scrum Inc. Scrum@Scale naturally extends the core Scrum framework to deliver hyper-productive results across industries and disciplines, including software, hardware, services, operations, and R&D.

The course is suitable for all who are about to start scaling Scrum or have already gathered some experience and want to deepen their understanding of large-scale Scrum.

What participants will learn

- How to facilitate cross-team collaboration and release planning with ten people, or with hundreds or thousands

- How to create and prioritise a transformation Backlog to overcome impediments to scaling

- How to measure and improve key Scrum metrics at an Enterprise level

- How to deliver five times as much work without adding new teams

- The responsibilities of the Product Owner, individual Scrum teams, and enterprise leadership in a variety of large-scale contexts.

- Real-world case studies of the implementation of Scrum@Scale

What participants will get

- An immersive learning experience facilitated by our S@SP expert

- Access to supporting course materials

- A two-year membership of Scrum@Scale, where additional material and information are available.

- A Certified Scrum@Scale™ Practitioner certificate

- Up to 16 Category B Scrum Education Units® (SEU's)

- Project Management Professionals® (PMP) can claim 16 PMI PDUs

- Free lifetime access to our On-Demand Introduction to Agile & Scrum training

This course requires minimum attendance of 16 hours. Please note that full attendance is mandatory in order to be registered for the exam and achieve the associated certification.

Who should attend

☑ Product Managers/Owners, Scrum Masters, Project Managers, Agile Coaches, Transformation Team

Prerequisites

Ideally, attendees will have taken a Certified ScrumMaster course, or be thoroughly familiar with Scrum introductory materials such as the Scrum Guide. They should also have experience in practising Scrum.
